

Free-Standing Combi - Freezer Bottom

KND9700

FEATURES

- Elektroniske betjeningsknapper
- VitaminZone
- Freezer Defense
- 37 dBA

Vitamin Protection grøntsagsskuffe

En skuffe med innovativ 3-farvet lysteknologi der efterligner solens vandring på himlen gennem et døgn. Dette bevarer vitaminerne i frugt og grønsager i længere tid.

Elektroniske betjeningsknapper

Det elektroniske touch-panel på visse Blomberg-modeller gør det muligt at foretage nøjagtige temperaturindstillinger. Funktionerne til hurtig nedkøling og hurtig nedfrysning gør det muligt hurtigt at øge og gendanne temperaturniveauet i køleskabet eller fryseren efter at have anbragt store mængder af friske fødevarer indeni.

NoFrost / Ventilret køling

Med denne teknologi opbygges der ingen rim i fryseren, så du behøver aldrig at afrime fryseren igen. Samt et lavt strømforbrug.

Freezer Defense

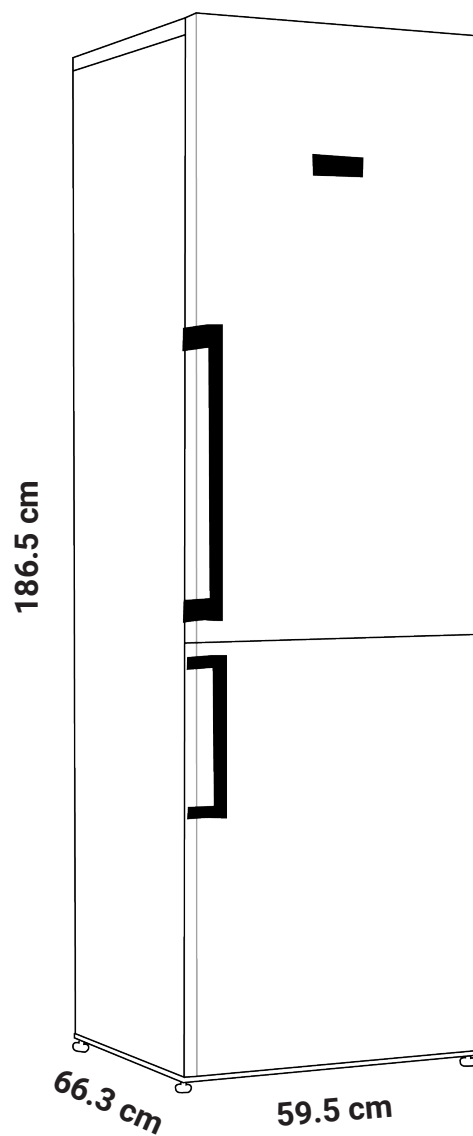

Blomberg kombiskabe har en unik funktion der hedder Freezer defense. Den tillader, at fryseskabet fortsætter med at fungere 100% selv ved temperaturer helt ned til minus 15 grader i tørre lokaler.

GENERAL

Type	Free-Standing
Total Volum	316 liters
Capacity Fridge	210 liters
Capacity Freezer	106 liters
Color	White
Freezer Position	Freezer Bottom
Cooling System Type	No Frost
Electronic Display	Electronic Display on Ceiling
Control System	Electronic
Display	Yes
Display Type	Tact (Membrane)
Light	LED
Door Opening Direction	Right
Reversible Door	Yes
Sliding Hinge(Built In Products)	NA
Open Door Alarm	Yes
Quick Cool	No
Quick Freeze	Yes
Eco Mode	Yes
Holiday Mode	Yes
VitaminZone	Standard
Dairy Compartment	No
Freezer Defense	Yes
Ice Maker Type	Icebox
Glas Shelves	Glass-All standard
Wine Rack Type	No

PERFORMANCE AND TECHNICAL INFORMATION

Energy Efficiency Class	E
Noiselevel	37 dBA
Noiselevel Class	C
Climat Class	SN-T
Dimensions (HxWxD)	186.5 x 59.5 x 66.3 cm
Plug Type	European
Cable Lenght	2.20 m
Daily Freezing Capacity	6.0 kilograms
Energy Consumption (kWh/annum)	247.11 kWh/annum
Refrigerant	R600a
Refrigerant Charge (kg)	0.066

- Place the product on a flat surface to avoid vibration.
- Place the product at least 30 cm away from the heater, stove and similar sources of heat and at least 5 cm away from electric ovens.
- Do not expose the product to direct sunlight or keep it in damp environments.
- Your product requires adequate air circulation to function efficiently. If the product will be placed in an alcove, remember to leave at least 5 cm clearance between the product and the ceiling, rear wall and the side walls.
- Check if the rear wall clearance protection component is present at its location (if provided with the product).
If the component is not available, or if it is lost or fallen, position the product so that at least 5 cm clearance shall be left between the rear surface of the product and the wall of the room. The clearance at the rear is important for efficient operation of the product.
